

PRODUCT SHEET

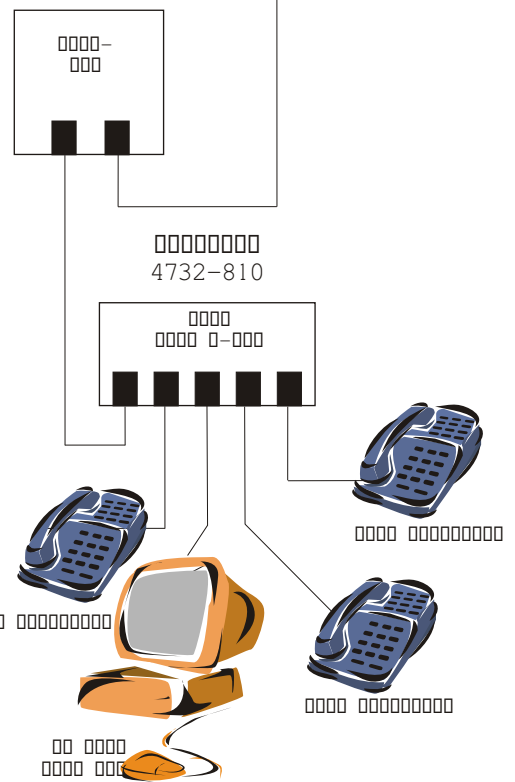

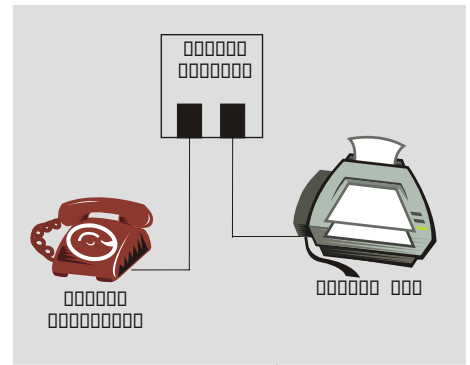

ISDN S-Bus products

The Telesafe Mini S-Bus products are specially designed for Small Office/Home Office environments. The Mini S-bus provides extension of the S-bus allowing 4 ISDN terminals like ISDN telephones, PCs with PC-cards or routers to be used from one digital outlet in the ISDN external termination box, normally supplied by the ISDN-provider. A Micro S-bus with two ports is also available.

Features:

- Any terminal supporting EURO-ISDN can be connected to the Mini and Micro S-bus products
- Up to 4 terminals can be connected to the Mini S-bus making it possible to use simultaneously 2 terminals of each 64 kbit/s.
- Easy installation also for non-technicians.
- Maximum flexibility.
- Housing is made of the same rigid quality plastic as Telesafe wall outlets.
- Screws for easy wall-mounting included.
- The S-Bus products are produced of 100% recyclable materials.

15 year product guarantee.
